Having examined the books of the treasurer, the accounts of the several town officers, and the books and receipts for orders drawn by Selectmen, Overseer of the Poor, and School Directors, the above report is respectfully submitted.

A. E. BRYANT, Auditor.

Report of the Superintendent of Schools.

Fellow Citizens:

The following report of the condition and progress made in our public schools for the present school year, is respectfully submitted.

SCHOOL No. 1.

The summer and fall terms of this school were taught by Miss Lilla Drury. Miss Drury is an excellent disciplinarian, and displayed much tact and ability in the management of her school. The pupils were quiet and their lessons were fairly well learned, and fair progress was made in their studies.

Whole number of pupils, 24.

The winter term was in charge of Miss Minnie Thomson, of Landgrove. Miss Thomson came to this school with an excellent reputation as a teacher, but she failed to properly govern the school and it was a partial failure.

Whole number of pupils, 25.

SCHOOL No. 2.

Number two was in charge of Miss Mary E. Spaulding, and was a decided success. The order and deportment in this school were all that could be desired. Good progress was made and general satisfaction given.

Largest number of pupils, 21.

SCHOOL No. 3.

The Primary Department of the village school was under the care of Mrs. Nellie Stoodley. The pupils in this school are all young—twenty-five per cent of them attending school for the first time. A teacher for this school needs a peculiar fitness to be successful. Mrs Stoodley has had more than an average measure of success and has shown much skill in interesting the pupils and making the school room pleasant. A steady improvement has been noticeable from the beginning to the end of the school. Largest number of pupils, 34.

SCHOOL No. 4.

The Higher Department of the village school for the summer term, was in charge of Miss Clara Howard, of Chester. Very few excel Miss Howard in natural talent for teaching, and in the first part of the term this gave promise of being a model school. Near the middle of the term, a very few of the pupils thought to show Miss Howard what they knew about running a school; the result was somewhat hurtful yet this was a profitable school.

The fall and winter terms were taught by Mrs. M. J. Swart,

a teacher of long experience and excellently fitted as a teacher for advanced pupils. She is very thorough in her work, very clear in her demonstrations, and insisted on well learned lessons; but perhaps was not patient enough with pupils not quick to learn. She is not as strict in discipline as some and thinks it not necessary. Some have been dissatisfied with Mrs. Swart as a teacher, but her school taken as a whole has been a profitable one.

SCHOOL No. 5.

Number five (formerly District No. 6) was taught by Miss Lizzie Colburn, a teacher of experience and ability. Miss Colburn's reputation as a teacher has been fully sustained in her management of this school. She entered heartily into the work, interested the pupils, and her school takes rank among the best in town. Largest number of pupils, 38.

SCHOOL No. 6.

This school (formerly District No. 12) was taught by Miss Ina Thomson, of Landgrove. This school has had a good record for several years, and its reputation has been fully sustained under Miss Thomson's management. The teacher had the aid and sympathy of the parents which made the labor much lighter and more pleasant. This school is in a very prosperous condition. Eleven pupils in the summer and fifteen in the fall.

SCHOOL No. 7.

This school (formerly District No. 8) was in charge of Miss Edith Shattuck. The first term of this school appeared to be prosperous. The teacher was very painstaking and thorough in her work; the pupils quiet and attentive; and the school gave promise of being successful. The fall term was attended by only about one-half of the pupils and the school could not be called a success, yet those that were constant in their attendance made good progress.

SCHOOL No. 8.

This school (formerly District No. 9) was taught by Miss Addie Smith, of Landgrove. The school is quite small, having only seven pupils in the summer and eight in the fall term. Miss Smith is an able and faithful teacher and did good work in the school room. The pupils made excellent progress in their

studies. The Register shows but fifteen absent marks for the year.

In conclusion I would say that I have visited these schools sufficiently often to keep informed as to the progress that was being made. With the exception of two terms, I feel justified in saying that more than an average progress has been made. Some may have done better than others, and some pupils have made better progress than others in the same school. One of the obstacles to the complete success of a school is the lack of aid and sympathy, on the part of the parents, for the teacher.

Fifty cents on the dollar has been raised: thirty-five cents for the support of schools and repairing of school-houses, and fifteen cents on the dollar to equalize school property.

Two per cent has been spent in repairing school-houses, leaving thirty-three cents on the dollar to pay all school expenses; and, as there has been no nine cent tax raised, this is equivalent to twenty-four cents on the dollar under the District System. Some of our citizens desire longer schools than we have had the present year; this matter may properly be referred to the voters in town meeting.

W. W. MANNING,

Superintendent.
